

Ilgiz Safiullin

QA Engineer · Manual Testing

ziktlit@gmail.com Los Angeles, CA · Open to Remote (US) [LinkedIn](#) [GitHub](#)

SUMMARY

Detail-oriented QA Engineer with hands-on experience in manual testing of web applications. Skilled in test documentation, bug reporting, API testing, and database validation. Passionate about product quality and continuous learning. [Currently learning Python for test automation](#)

EXPERIENCE

QA Engineer — Test Project (Online Electronics Store) Jan 2026 - Present

- Performed manual testing of an online electronics store web application, covering user registration, product catalog, shopping cart, checkout, and profile management
- Created and maintained test documentation including checklists and test cases in Qase TMS
- Reported and tracked defects in Jira with clear reproduction steps, expected/actual results, and severity levels
- Executed API testing using Postman and Swagger UI to explore and validate REST endpoints
- Intercepted and analyzed HTTP/HTTPS traffic using Postman Interceptor
- Validated backend data using MySQL Workbench
- Performed cross-browser testing using Chrome DevTools to identify layout and rendering issues
- Performed smoke, regression, and exploratory testing across key application flows
- Familiar with Git, Bash, and Jenkins CI/CD workflows

SKILLS

TESTING

Manual, Exploratory, Regression, Smoke, API (REST), Cross-browser

DATABASES

MySQL (SELECT, JOIN, Workbench)

TOOLS

Jira, Qase, Postman, Postman Interceptor, Swagger, Chrome DevTools

DEV BASICS

Git, Bash, HTML/CSS, CI/CD (Jenkins), Python (learning)

CERTIFICATIONS

Software Testing from Scratch — Advanced Course · Stepik **98% with distinction** May 2026

EDUCATION

Bachelor's Degree · Restaurant Business Management Russia

LANGUAGES

Russian — Native · English — Upper-Intermediate (B2, technical documentation & communication)
